Disclaimer: Data Sources: Bloomberg L.P. and Collidr. This report was produced by Collidr Research ("Collidr") on behalf of Kirk Rice LLP. The information contained in this report is for illustrative purposes only and should not be construed as a solicitation nor offer, nor recommendation to acquire or dispose of any investment. Specifically the share class used to create the illustrations may not be available on all platforms, nor be suitable for individual investors. While Kirk Rice & Collidr uses reasonable efforts to obtain information from sources which it believes to be reliable, Kirk Rice & Collidr makes no representation that the information or opinions contained in this report are accurate, reliable or complete. The information and opinions contained in this report are provided by Kirk Rice & Collidr for professional clients only and are subject to change without notice. You must in any event conduct your own due diligence and investigations rather than relying on any of the information in the report. All figures shown are bid to bid, with income reinvested. Model returns are calculated using the most appropriate share class of the underlying funds, having regard to the illustrative nature of the report, with all income being reinvested. As a result, real portfolio performance may vary from model performance. Where model portfolio histories are shorter than three years, model returns prior to the portfolio inception date utilise data from a Collidr performance benchmark. Benchmarks are constructed either from the average returns of all Collidr portfolios with similar risk profiles that existed during that time or, for passive portfolios, a single equivalent Collidr passive portfolio. The model ongoing charge and the historic yield figures, where shown, are illustrative and calculated using the weighted average of the ongoing charge figures and historic yield figures (prevailing 12 months) available for the underlying funds from the time of the model inception or, where relevant, the latest model rebalance date. The ongoing charge figure does not include any further charges that an individual investor may need to pay in order to access the model. The value of investments and the income from them can go down as well as up and past performance is not a guide to the future performance.
